

# Xerox® D95A, 110, 125, 136 Pro Copier/Printer

D-SERIES

The Xerox® D-Series Pro Copier/Printer is engineered for superior performance and dependability with state-of-the-art finishing capabilities and the broadest range of media to get work done faster and more affordably.

Flexibility for every environment, from standard folding and punching, to booklet finishing and folding, from square fold trimming to advanced punching and high capacity stacking, you truly have outstanding tools at your disposal that can help you produce work that wows your customers and grows your business.

It's built to handle the widest array of applications so you can unleash profit potential like never before. The Xerox® D-Series Pro Copier/Printer offers all the features to keep jobs moving, meet tight deadlines and accommodate higher volumes. This is important particularly with transactional printing such as bills and statements where performance, accuracy and reliability are crucial.

## SUPERPOWER PROTECTION

The ability to guarantee secure transmission of business-critical data is essential to your relationship with your transactional customers. The D-Series Pro Copier/Printer provides secure transmission of business-critical data needed for transactional communications such as financial statements. Included are security standards like Strong Passwords, Secure FTP, IP Filtering and Port Blocking, preventing unauthorized access and modification.

## XEROX® INTEGRATED COPY/PRINT SERVER — SCANNING OPTIMIZED

The Xerox® Integrated Copy/Print Server comes standard on every D-Series Pro model, providing state-of-the-art technologies with an easy-to-read touch screen user interface to optimize daily tasks and deliver dependable workflows. The interface includes email, copy, scanning, storage locations and customized Job Flows that allow for the one-touch capability to distribute to multiple scanning destinations, saving valuable time. The Integrated Server has all the innovative capabilities in a small affordable footprint.

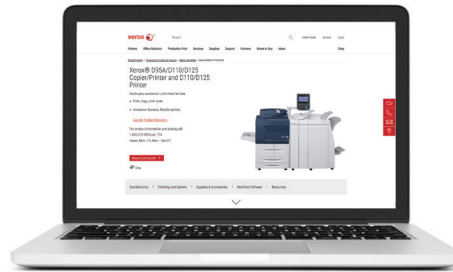

## CAPTURE, PRINT, DISTRIBUTE, REPEAT

The superior scanning provides both color and black-and-white scans at 600 x 600 dpi with 8-bit resolution. Scan To PDF creates PDF files that can be PDF compressed, PDF password-protected and text-searchable, so you don't have to buy additional software to create your PDF files. Users can also save to and print from USB as a standard option. Even the largest, most complex jobs run with optimum speed and efficiency with the 250-sheet Automatic Document Feeder. So users can drop their stack of documents, scan and distribute to multiple destinations in seconds.

## D-SERIES PRO COPIER/PRINTER QUICK FACTS
